WARNING!

Off road motorcycle lights are subject to damage and wear caused by vibration. Always check your lights before riding at night. Be sure you follow these instructions thoroughly. If the headlight falls off, it can jam the front wheel. Do not secure cables with number plate mounting straps. Use the guides provided. Before riding, check that all cables, holes, and controls function properly. The rubber mounting straps are subject to degradation from atmospheric pollutants. Always inspect them before riding. Never ride unless all the four mounting straps are properly installed and in good condition. If you have any questions regarding the fitment or installation of this product please contact your local Acerbis dealer. Acerbis recommends that installation must be done by a licensed mechanic and that only Acerbis' original parts are used during installation. Acerbis makes no guarantees or representations, express or implied, regarding the fitment of its product for any particular purpose.
